IBN SINA FOUNDATION Identity / Print

Ibn Sina Foundation is a non-profit organization which offers integrated care services to low-income patients in the Houston area. The primary objective of this project is to create a brand identity that effectively resonates with the identified personas, aligning the Ibn Sina Foundation's visual identity with their core mission of providing integrated care to the community.

Professor Cynthia Stipeche

Year 2023

Course Awareness Campaign Through Targeted Storytelling

Jennie Hernandez
Volunteer

I'm seeking lots of hand on-experience and engagement with the community to improve the health of others.

Pain Points

- 1 As she is a first generation college student, she has more pressure to provide financially for her family.
- 2 She wants to find a better work/school balance.
- 3 Motivated by her mother's illness, she thought she wanted to become a specialist in diabetes to help improve her mother's health, however she realized diabetes is a complex illness that is related to other illnesses.
- 4 How often is someone of what organizations could do the most good in improving her mother's health and that of others.

Who volunteer for Ibn Sino?

65.5%	18.7%	18.7%
of female students volunteer	of female students volunteer	of female students volunteer

Age: 21
Female / Hispanic
2nd year pre-med student
1st generation college student

Eric Setiawan
Government Affiliate

I'm attempting to connect with those in our community that face more barriers when it comes to accessing healthcare.

Who are the government partners?

64%	6%
of government workers are male	Federal employment makes up 6% of the population.

Pain Points

- 1 Concerned that the lower class will be negatively affected due to the lack of accessibility to the health system.
- 2 Worried the general health is going to be compromised because the income Americans are not able to pay for the necessary medical care.
- 3 Concerned that lack of government funding means that healthcare providers won't have a decent structure to take care of all patient's needs.
- 4 Desires accessible and quality healthcare for all regardless of socioeconomic status, ethnicity, gender identity, religion or sexual orientation.

Age: 47
He serves on several boards of community professional and civil rights organizations.
Assistant Director of Houston Health Department

Where does Ibn Sino's funding come from?

69%	11%
from patient fee	from individual donors
